Supplemental Information

At Necco . . . We Build Families! We know the Power of Family and we work with each youth to strengthen family bonds and connections. Each youth has a permanency goal as part of their individualized treatment plan. Not all youth are able to return to their bio parents or even a bio family member home, but we seek to strengthen family bonds (parents, grandparents, siblings, aunts and uncles, cousins, etc.) whenever possible. We work with the youth's state worker, foster parents and family to provide face-to-face visits (supervised and unsupervised as ordered), telephone contact and home visits (as allowed). The youth's treatment plan includes (as individualized to need and circumstances) goals and objectives related to strengthening bonds with family and other pro-social adults. Family counseling is provided as indicated by each youth's treatment plan.

Psychiatric Services

All foster youth receive a mental health screening at placement to assess for immediate psychiatric needs. Necco staff coordinates with local physicians and psychiatrist to provide medication management services for the youth we serve. Youth are typically seen for medication management services within the first thirty days and/or when their current prescription requires an appointment for medication monitoring or assessing. Foster parents are trained in Necco's internal medication management curriculum. Necco staff monitor and support the youth and foster parent to ensure that medication management and documentation is consistent.

Describe How the Program Supports Family Connections

"Necco of Owensboro offers family therapy, and encourages family contacts and visitation when approved. Necco provides supervision of family visitation. Necco will travel to the referring office to complete the intake process.

Special Interventions Available Internally

In addition to weekly case management services, treatment planning and 24-hour crisis support Necco provides a wide range of specialized therapy interventions. Our highly trained counselors, clinicians and therapists work alongside case managers, state workers, foster parents, and other stakeholders to provide quality services that include goal-directed, psychosocial treatment and support to youth and their families.

For the Owensboro, Kentucky location, specialized interventions available internally include: crisis interventions, random drug screens, electronic monitoring, working with youth victims of domestic and family violence, sexual offenders, sexual abuse victims, substance abuse, reactive attachment disorder, family group decision making and critical stress debriefing, case management, PTSD, ADHD, conduct disorder, ODD, depression and other mood disorders, psycho-educational training available to foster parents as needed, self-harm and self-
