Supplemental Information

Sunrise Cumberland Region Foster Care has been licensed since 1995 and is just one part of a comprehensive continuum of care that includes after care planning and is focused on our clients and their families. Our program is licensed to serve the populations of foster care, therapeutic foster care, foster to adopt, sibling groups, clients working toward independence, and we are expanding services every day to better meet client needs. Our program trains the entire treatment team in the Positive Discipline evidence based practice model we use and specializes in the individualized treatment approach that every client deserves. Our success is seen in the credentials and experience of our staff as detailed below, the longevity of our foster parents, and the number of clients who have found forever homes (currently over 225 clients have been adopted in the last three years) through our foster-to-adopt emphasis across the Commonwealth.

Well Being

Does this program have a PCC Foster to Adopt Agreement?.	Yes	Educational Disruptions in the Past Year:	0
Adoptions by the Program's Foster Homes in the Past Year:	0	School Changes in the Past Year:	1

Describe How the Program Supports Family Connections

The support of a Family Connection is something we strive for in every client's life and permanency is addressed from the minute a client is referred and admitted to our program. Our team works directly with the biological family whenever possible to receive their input and make that a vital part of the client's care. When families need our assistance, we work with them through flexible scheduling, internet facilitated meetings/visits, family therapy, phone card assistance, supervised visitation, transportation, and other creative means of support. It is a privilege to be a guest in a family's life and our staff expectation is to honor that privilege through respect of the family.

Special Interventions Available Internally

Our staff is actively involved with our foster families and available to the treatment team members 24/7/365. Our staff members have detailed experience in therapeutic foster care, residential treatment, DCBS, psychiatric hospitalization, and working with families and the clients we serve. Our agency supports our homes in various ways, including providing furniture, specialized equipment financial/physical support and covering other expenses in order to place a child or sibling group in the safest and most stable environment.
