The Sunrise Glendale center operates in a new, secure facility with an on campus school, full time nurse, case management and professional therapeutic support. The program uses a trauma recovery model focusing on the underlying attachment issues which contribute to most adolescent emotional and behavioral issues. Our staff are highly trained and work towards building supportive, trusting relationships which promote trauma recovery. Clients are assigned individual mentors who guide them towards improvements and social behaviors and a more healthy emotional balance. We incorporate family therapy, when possible, and provide a wide range of therapeutic groups, education and healthy recreational activities which encourage children to make positive attachments to our community. With Sunrise's continuum of care, we are able to provide comprehensive discharge planning including the option of Sunrise foster care. We are diligent in providing social workers with timely information on the progress of their clients and support services as needed. Our outcomes are consistently positive.

**Included/Excluded Populations**

**Gender Accepted:** Female **Age Range Accepted:** 12 to 17 **LOC Range Accepted:** 4 to 5 **Mininum IQ Accepted:** 60

## Describe How the Program Supports Family Connections

Family connections are supported through individual and family therapy sessions, when possible, to ensure that visits (both supervised and unsupervised) are successful. Family members are invited to attend monthly treatment team meetings and are encouraged to be involved in all aspects of the client's treatment. When needed, program staff provide transportation for home visits.

## Special Interventions Available Internally

Therapeutic services include individual, group and family therapy; trauma recovery support; participation in a therapeutic community; independent life skills; substance abuse counseling; and psychiatric and medical services. A variety of recreational, spiritual and cultural activities are offered within the program as well as off campus events throughout the community in which clients are encouraged to use their social skills to interact within the community setting.
