Describe How the Program Supports Family Connections

We recognize that clients in the Independent living program have recently entered adulthood and may have difficulty adjusting to living independently of family members. Clients are encouraged to maintain healthy family contacts throughout their stay in the IL program. Program staff encourages IL clients to invite parents and other significant family members to treatment meetings and continue as part of their support system. Family members are not allowed to live with clients in their apartment'; however with staff permission they are allowed to visit overnight occasionally.

Special Interventions Available Internally

As an agency, we are able to supplement with specialty therapy services utilizing our licensed therapists in our Family Services Division of Sunrise depending upon the needs of the client.
